

CSWC Operational Period Summary

0600 July 13 2014 to 1800 July 13 2014

Trails Incident, San Diego City/County – Photo Credit: NBC 7, San Diego

SITUATION SUMMARY

Trails Incident, Vegetation Fire, San Diego County (New)

Father Junipero Sierra Trail/Mission Gorge Rd, Mission Trails Park, City of San Diego, San Diego County

Jurisdiction: LRA

Start Date/Time: 07/13/2014 14:13 hours

- 90 acres, 30% contained
- Forward spread stopped
- No structure threat
- CAL FIRE air resources released
- Continued commitment of CAL FIRE ground resources

Nicolls Incident, Vegetation Fire, Kern County (Update)

Scodie Mountains – Kiavah Wilderness, Lake Isabella, Kern County

Per CAL FIRE, Cal OES Fire Duty Officer, and ICS-209 as of 07/13/14 at 1829 hours:

- FRA
- 1447 acres, 55% contained
- Structures Threatened: 50 single residences

Bully Incident, Vegetation Fire, Shasta County (Update)

Old Bully Choop Road, Community of Igo, Shasta County

Per CAL FIRE, Cal OES Duty Officers, and ICS-209 as of 07/13/14 at 1742 hours:

- SRA
- 4,000 acres, 15% contained
- Structures Threatened: 15 single residences, 50 other minor structures
- Structures Damaged: 1 single residence
- Structures Destroyed: 8 single residences, 10 other minor structures

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA:

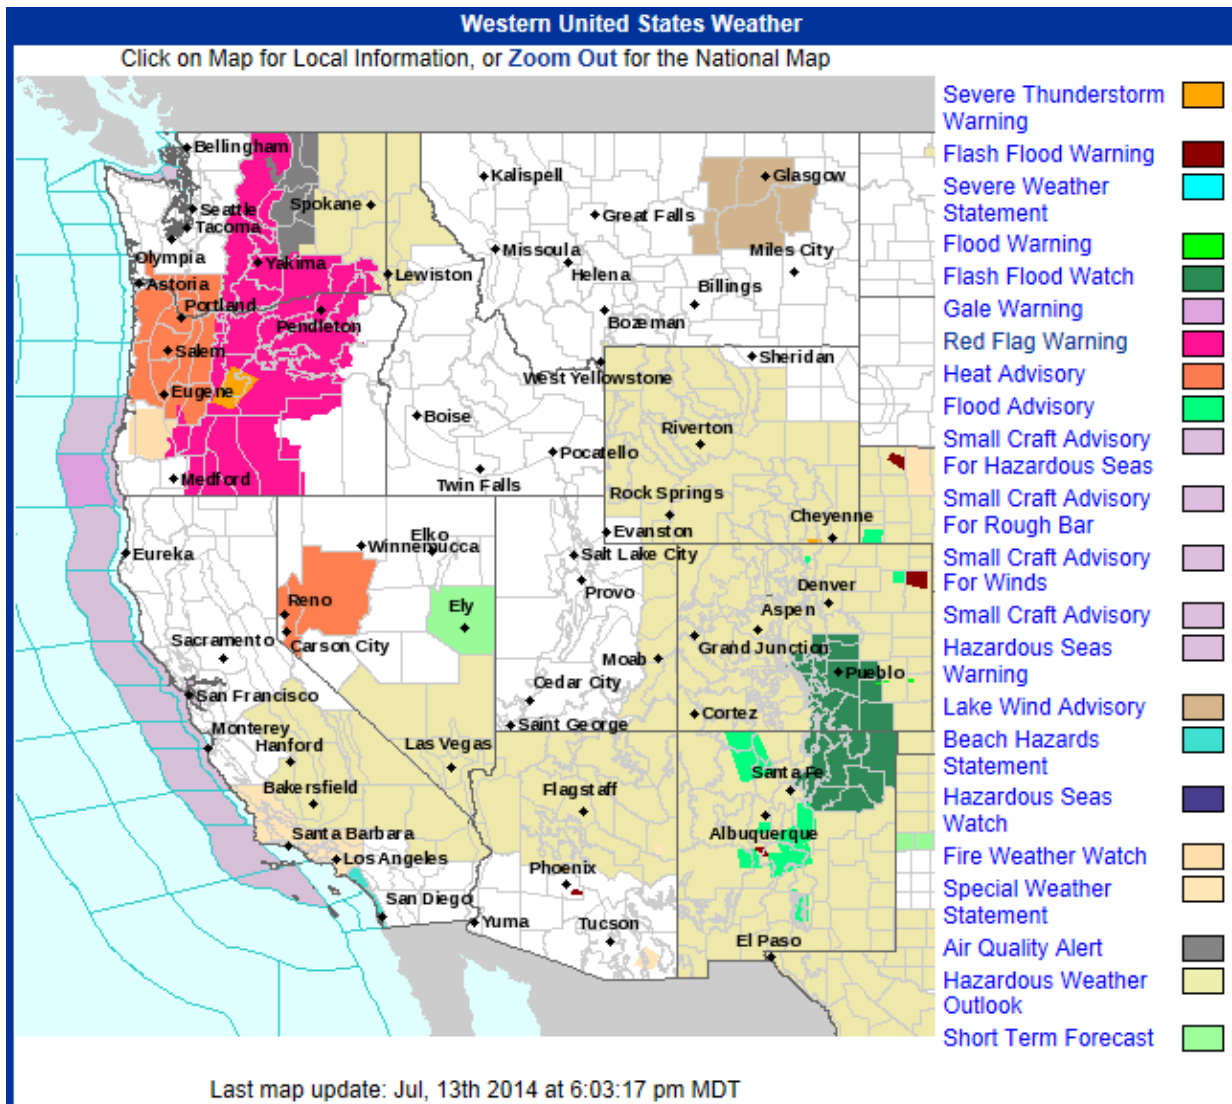

Thunderstorms produced approximately 150-200 lightning strikes in the northeast corner of the Northern Operations yesterday. A few isolated strikes are possible again today near the Oregon state line, with much more expected throughout Oregon and Washington. High pressure is building over California; hot and dry weather is expected today and most of Monday. Inland temperatures will be 7-10 degrees above normal with humidity dropping to 10-20% today and Monday. Poor overnight relative humidity recovery is also expected. However, a small offshore low pressure area will track northeastward, reaching Western Oregon today. This will cause a period of moderate southwest-northwest winds (gusts 25-30 mph) in far Northern California and Northwest Nevada this afternoon. Areas will be hot and dry after receiving lightning on Friday. The low will be responsible for an active thunderstorm day in the Pacific Northwest. Late on Monday the high pressure will begin to break down and allow a surge of moist unstable monsoon air to approach from the southeast. Afternoon buildups are likely with this pattern, and there is a chance of thunderstorms in the southeast portion of the North Operations. By early Tuesday thunderstorms are possible over the higher terrain of a large portion of the region, with the main focus on the Northern Sierra. These storms will initially be somewhat dry, but produce more rainfall as they become more numerous late Tuesday through Thursday. Isolated thunderstorms may continue in eastern areas Friday and Saturday, but the general trend will be for drier and more stable conditions as a weak westerly flow pushes the moist unstable air off to the east.

SOUTHERN CALIFORNIA:

East to southeast flow aloft will bring isolated afternoon showers and thunderstorms to the mountains and deserts of Southern California east of the Cajon Pass today. The shower and thunderstorm activity will increase and spread north and west on Monday and Tuesday. A weak disturbance in the flow may bring scattered showers and thunderstorms all the way to the coast across Southern California Monday afternoon and Monday night. Moisture will decrease across Southern California ending the thunderstorm threat in this area Wednesday through the end of this week, but scattered showers and thunderstorms will continue across the Sierra and northern deserts each afternoon. Strong high pressure over Nevada will bring well above normal temperatures today, with mid 80s to mid 90s in the mountains and mid 90s to 105 in the valleys. Minimum humidity will be mainly between 12% and 25% away from the coast today. High pressure over Nevada will slowly weaken Monday through the end of this week bringing a gradual cooling trend to the region. Strong downdraft winds will be possible with any thunderstorm activity; otherwise winds will be light through the end of this week.

FIRE ACTIVITY

Trails, Vegetation Fire, San Diego County (New)

Fire Information:

Father Junipero Sierra Trail/Mission Gorge Rd, Mission Trails Park, City of San Diego, San Diego County

Jurisdiction: LRA

Start Date/Time: 07/13/2014 14:13 hours

- 90 acres, 30% contained
- Forward spread stopped
- No structure threat
- No critical infrastructure threats
- CAL FIRE air resources released
- Continued commitment of CAL FIRE ground resources

Nicolls, Vegetation Fire, Kern County (Update)

Fire Information:

Scodie Mountains – Kiavah Wilderness, Lake Isabella, Kern County

Per CALFIRE, Cal OES Fire Duty Officer, and ICS-209 as of 07/13/14 at 1829 hours:

- FRA
- 1447 acres, 55% contained
- Structures Threatened: 50 single residences
- CAL FIRE Air Resources assigned.
- Central Sierra Interagency IMT (IC Cooper) is assigned.
- Steep rocky terrain, very limited access and high winds continue to hamper suppression efforts.
- Total Personnel: 879

FIRE ACTIVITY

Bully Incident, Vegetation Fire, Shasta County (Update)

Fire Information

Old Bully Choop Road, Community of Igo, Shasta County

Per CALFIRE, Cal OES Duty Officers, and ICS-209 as of **07/13/14 at 1742 hours**:

- SRA
- **4,000** acres, **15%** contained
- Structures Threatened: 15 single residences, 50 other minor structures
- Structures Damaged: 1 single residence
- Structures Destroyed: **8 single residences, 10 other minor structures**
- Continued threat to structures, residents, and incident personnel due to the hot, dry weather, dry receptive fuels, and difficult topography that limits access.
- CAL FIRE IMT 6 assumed command at 1800 hours on 07/12/14.
- Total Personnel: **1705**

Emergency Management

Evacuations/Shelters:

- Mandatory Evacuation Orders have been lifted.
- The American Red Cross evacuation center at Grant School, located at 8835 Swasey Drive in Redding, is closed.

Road Closures:

- All roads have been opened to residents only with proper identification.

EOC Activations:

- Shasta County EOC activated at Level 1.
- Inland REOC and SOC activated at Level 1 in support of Shasta County EOC.

Deployments:

- A Cal OES Assistant Fire Chief is assigned to the Bully Incident as an Agency Representative.
- Two Public Safety Communications Radio Technicians are assigned to the fire.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- On 7/8/14 the State Water Board will publicly release proposed water conservation requirements to reduce water waste across the state. These proposed emergency regulations include mandatory restrictions on water use, and will be considered by the Water Board on 7/15/14.
- California Department of Fish and Wildlife staff evacuated trout from a major hatchery on the American River last week to avoid a massive die-off of fish due to increased water temperatures in the hatchery. Over two million fish are being relocated and released earlier than normal due to drought conditions.
- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Situational Summary

Open Burn Ban in effect across the state: Open burning is now prohibited on 31 million acres of land across the state, due to a burn ban that CAL FIRE has directed each of its unit chiefs to implement. This ban on open burning in state responsibility areas (outside of cities and towns) reduces wildfire danger amidst extremely dry conditions.

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

On July 1 2014, administration of the CDPH Drinking Water Program (DWP) transferred to the California State Water Resources Control Board (SWRCB) Division of Drinking Water. CDPH and the SWRCB entered a Memorandum of Understanding outlining a three-month transition period during which drought response activities and any other emergencies will be coordinated jointly between the two organizations.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-4031**, California State Warning Center advised by International Emergency Rescue Coordination Center (IERCC) of SPOT Device activation in Sequoia National Park (Tulare County). Device register owner (RO) is 56 year old female backpacker. Tulare County SO and Sequoia National Park notified. Helicopter search on-going by Sequoia National Park. Cal OES LDO continues to coordinate and monitor.

Ongoing Cal OES Missions

- **2014-LAW-3978, Mission reopened.** San Bernardino Sheriff's Office requested resources for a homicide investigation. Searches conducted on 7/12/14 were not successful. Kern and LA SAR teams remained on site over night and will conduct additional searches on 7/13/14. Cal OES LDO is coordinating resources.
- **2014-LAW-4014**, Mendocino County Sheriff's Office is requesting a cadaver dog team for a search related to a homicide to be conducted sometime next week. Cal OES LDO is coordinating resources
- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
